Sustainable Styling

G7 Design
International College of Spain

Name:

KEY CONCEPT: Communication

RELATED CONCEPTS: Form and Perspectives

GLOBAL CONTEXT: Fairness & Development

STATEMENT OF INQUIRY:

Designers can communicate powerful messages which can promote sustainability, through considered solutions based on client perspectives.

INQUIRY QUESTIONS:

FACTUAL
How did you decide on your chosen UN SDG?
What are material properties?

CONCEPTUAL How can a UN SDG be translated through a solution/design?
Why is it important to understand the properties of different materials?

DEBATABLE
Which UN SDG is most important?
Should a designer change their ideas to suit a material or change the material to suit the design?

ATL: Social Skills

DESIGN CONTEXT:

The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

ICS Madrid collaborates with UNICEF, and students are challenged to make a difference both locally and internationally, working to support the UN Sustainable Development Goals. To show further support, ICS Madrid is looking to launch some promotional items that can communicate the UN SDGs and are a visual reminder of the different goals all year round. You are expected to create one fabric item to represent one of the goals, using a combination of prints and colour schemes to communicate your message. If successful, your design could be expanded to represent different goals.

Watch this video to gather more understanding on the UN SDGs.

G	Goal	To create a textile product which promotes one of the UN SDGs, as supported by ICS.
R	Role	A designer for a large fashion company who want to create more sustainable solutions.
A	Audience	The students, parents and staff of ICS school.
S	Scenario	Your company wants to create products that support the UN SDGs to sell to ICS school, promoting one of the goals as a prototype for a whole set.
P	Product	A fabric item - either a coin purse or pencil case.
S	Success Criteria	MYP Assessment Criteria A, B, C and D.

A. INQUIRING & ANALYSING MARK SCHEME:

Strands	Slides	0	1-2	3-4	5-6	7-8
i. explain and justify the need for a solution to a problem	**4**	The student does not reach a standard described by any of the descriptors	states the need for a solution to a problem	outlines the need for a solution to a problem	explains the need for a solution to a problem	explains and justifies the need for a solution to a problem
ii. state and prioritize the main points of research needed to develop a solution to the problem	**5** **6** **7** **8** **9**	The student does not reach a standard described by any of the descriptors		states some points of research needed to develop a solution, with some guidance	states and prioritizes the main points of research needed to develop a solution to the problem, with some guidance	states and prioritizes the main points of research needed to develop a solution to the problem, with minimal guidance
iii. describe the main features of one existing product that inspires a solution to the problem	**6**	The student does not reach a standard described by any of the descriptors		states the main features of an existing product that inspires a solution to the problem	outlines the main features of an existing product that inspires a solution to the problem	describes the main features of an existing product that inspires a solution to the problem
iv. present the main findings of relevant research	**10**	The student does not reach a standard described by any of the descriptors	states the findings of research	outlines some of the main findings of research	outlines the main findings of relevant research	presents the main findings of relevant research

SITUATION:

What are the UN SDGs?

Why are the UN SDGs important?

Why does ICS support the UN SDGs?

Describe who would need/want/use these different products?

Why would they need/want/use these products?

Which client would you prefer to create your product for and why?

RESEARCH PLAN:

WHAT DO I NEED TO KNOW?	WHY DO I NEED TO KNOW THIS?	HOW AM I GOING TO DO THIS?	TYPE OF RESEARCH	PRIORITY

Which goal do you think is most important and why? Watch the specific video for the goal you have chosen and explain why you have chosen this goal.

TREND BOARD: (based on your chosen UN SDGs)

RESEARCH: THE SEWING MACHINE:

Anatomy of a Sewing Machine (click the image for link)

Explain the process of stitching, anything to watch out for, tips, etc:

Find the correct definitions of the sewing terms here:	
Lining	
Pattern	
Seam allowance	
Backstitch	
Topstitch	
Dart	
Interfacing	

RESEARCH REVIEW:

SLIDE	WHAT DID I LEARN?	WHY IS IT USEFUL?	HOW MIGHT IT BE USED?

DESIGN BRIEF:

1. Design Problem:
   1 sentence

2. Intended Client:
   3 sentences

3. Description of Current Market:
   4-5 sentences

4. Limitations:
   4 sentences

SPECIFICATION:

IMPACT OF THE SOLUTION:

How well did you meet the Design Brief?

The goal of this unit was "to create a textile product which promotes one of the UN SDGs, as supported by ICS". How well do you think you met this goal?

What impact could your product have on…

1. ***Your friends***
2. ***The school community***
3. ***The United Nations Sustainable Development Goals***
