4. For each technique used above, explain how it contributes to telling the story. I have included examples of how your answer should look. Please delete my responses and add your own.

B-roll: the journalist filmed relevant footage and overlaid it on interview footage to show examples of what the person is talking about

Motion graphics: there are animated graphs and diagrams that visualize certain data, which helps the viewer better understand the information

5. In your opinion, is this an effective example of video journalism? Why or why not?
